

Welcome to Animal Pal Chiropractic!

(Sister clinic of Valerie Teo Chiropractic)

Here are some helpful information you need before entering the clinic!

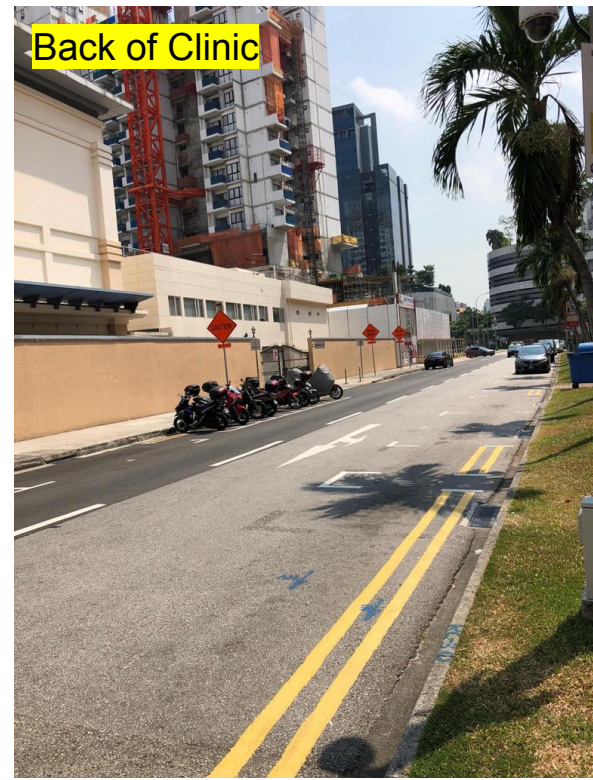

This is the **FRONT** of the clinic where **HUMAN PATIENTS** enter from. We **DO NOT** allow animals and pets through the front entrance as other patients may dislike or be allergic to animals.

Thus, we kindly seek your understanding to please enter through our pet entrance. We have a sign at our back entrance of our clinic logo for you to find us easily.

Front of Clinic

Back of Clinic

There are parallel parking spaces available in this area, as well as around the block for you to park before entering through the back entrance.

This is a parking lot behind the clinic. This is the carpark closest to the **PET** entrance of our clinic. It is advised for you to park here if you or your dog has any disabilities for easy access.

This is our **PET** entrance where it has easier access to our animal treatment room. There is a sign on the back as well as a doorbell that you can ring to alert us of your arrival.
